REMARKS/ARGUMENTS

This application contains claims directed to the following patentably distinct species of the claimed invention:

- 5 Species I: Figure 1;
- Species II: Figure 2;
- Species III: Figure 3;
- Species IV: Figure 4;
- Species V: Figure 5;
- 10 Species VI: Figure 6;
- Species VII: Figure 7;

The species are independent or distinct because they are not obvious variants.

- 15 Applicant is required under 35 U.S.C 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

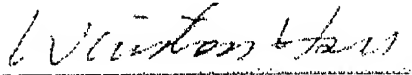

Response:

- 20 The applicant elected the claims in Species VII, as illustrated in Figure 7. All claims 1-16, pertaining to Figure 7, are elected as the subject matter to be examined in the present application. Figure 7 illustrates a set of gears that can be used to change the position of a variety of objects inside the projector 50 such as the projection lens 22 and the concave mirror 18. In addition, the last sentence of paragraph 25 of the specification
- 25 mentions, "The aspherical lens 16 is not shown in Figure 7 for clarity, but may also be included in the projector 50." Furthermore, the last sentence of paragraph 25 of the specification states, "Additional gears may be used for adjusting the position of the

folding mirror 51 as well." Thus, all claims are readable upon the embodiment of the present invention shown in Figure 7.

5 Sincerely yours,

Date: August 07, 2006
